

Volunteers' Report
Monday 10th October 2016

Volunteers:- Phil Cleaton, Byron Myer, Jan Domanski, Ian Goodall, Dave Butler, Phil Bevington, Bob Gray, Ken Bellman

Apologies:- Stephen Humphreys, Gordon Bray, Brian Thorn

With our leader Pete Tanner relaxing on the South Coast (apparently co-ordinating and delegating is hard work) and our FE loaders Brian Thorn on sick leave and Dave Butler unable to start till 9am. Superintendent Shane directed the team to remove (10th) and relocate (7th) native grasses, soil fill GUR areas on 2nd and 7th and weed spraying.

With the arrival of Dave Butler the tractor/trailer job became mine. We completed mulching of the 7th and native grass relocation. I can now report to Pete Tanner my reversing skills on the tractor are now on par with the workman (yes, the trailer was attached).

Phil Bevo again showed initiative in native plant placement and Jan Domanski is to be commended on his efforts whilst suffering a double hernia (not done on the job and not workers comp).

Today's work again showed how reliant the team is on FE drivers Brian and Dave.

Luke's log has been repositioned, Dave Butler has secured plants and they are being installed as we go to press.

Phil Cleaton reported another "Legge" incident was narrowly avoided. Byron Myer was nearly sprayed with green weed killer. Phil commented he would have looked like the Hulk. A frayed knot (passed spell check). Bryon would have looked more KERMIT than HULK.

Another thanks to the Club and staff for lunch.

Next Volunteers Day t.b.a. by Pete Tanner (note: not 24/10/16 due to Camden Senior Order of Merit Event).

Regards,
Ken Bellman.
